KCC Vice Chairman Choong Seek Kim to Visit Japan

- Vice Chairman to visit MIC & NHK to check Japan's UHD broadcasting preparations -

KCC Vice Chairman Choong Seek Kim is slated to visit Tokyo, Japan from September 9 to 11 to check Japan's preparations for ultra high definition (UHD) broadcasting.

The KCC has set up a research group to be jointly operated with the Ministry of Science, ICT and Future Planning, with regard to 700MHz-related digital dividend and UHD broadcasting in Korea. Vice Chairman Kim will hear Japan's policies on spectrum management and usage of the 700MHz band at the Ministry of Internal Affairs and Communications (MIC), and have a discussion about its UHD broadcasting launching schedule.

He will then proceed to NHK and Japan Cable and Telecommunications Association to discuss their preparations for UHD broadcasting roll-out in Japan and their plans to secure UHD content.
